

Procon Constructors Inc., founded in 1995, has become a leading organization in the multi-trade contracting industry, providing professional Electrical, Mechanical, SCADA, Instrumentation installation and maintenance service to the Industrial, Commercial and Institutional (ICI) sectors.

At Procon, we pride ourselves in employing outstanding individuals who provide professional, efficient, innovative, and exemplary service to our customers. While our skilled teams remain focused on strategic planning and the precise execution of each project, our 30 years of expertise, experience, project execution and delivery in the areas of estimating, project management and design build solutions has earned us the excellent reputation we enjoy in providing quality construction services and professional-grade results.

We are currently seeking to add the following individuals to our Mechanical Division team:

Welder – Carbon Steel & Stainless Steel Process Piping

About the Role

Procon is seeking experienced welders with proven skills in carbon steel and stainless steel process piping. This is an exciting opportunity to join a highly skilled, safety-focused team delivering high-quality industrial and mechanical construction projects.

We are looking for welders who are interested in joining our project team through UA Local 67. Successful candidates will be required to:

- Complete UA Local 67 weld testing, and
- Successfully complete the UA “Work Ready” training program prior to joining the job site.

Procon will provide full support and coordination for candidates through the UA testing and “Work Ready” process — ensuring you have everything you need to join our team with confidence.

Key Responsibilities

- Perform GTAW (TIG), SMAW (Stick), and/or GMAW (MIG) welding on carbon steel and stainless steel process piping.
- Read and interpret blueprints, welding symbols, and piping isometric drawings.
- Ensure all welds meet Procon’s quality standards and project specifications.
- Follow safety protocols and procedures on all job sites.
- Collaborate with foremen, pipefitters, and project supervisors to complete installations efficiently and safely.

- Participate in required UA Local 67 qualification and “Work Ready” training as part of onboarding.

Qualifications

- Minimum 3 years of welding experience in industrial or process piping applications.
- Demonstrated proficiency in welding carbon steel and stainless steel piping systems.
- CWB or equivalent certifications preferred.
- Ability to pass UA Local 67 weld testing and complete UA “Work Ready” training.
- Strong understanding of welding procedures, codes, and safety standards.
- Excellent attention to detail and commitment to quality workmanship.

Why Join Procon?

- Opportunity to become part of a skilled, unionized workforce through UA Local 67.
- Earn \$75.29/hour total package (wages + benefits + pension) under the UA Local 67 agreement.
- Work on exciting, large-scale industrial and process projects.
- Strong safety culture and professional development support.
